Dear Gary,

Separately I am returning themagzines you loaned me. I have copied only the entire Hoover article and pages 84 and 86 of the Vidal interview (sll of it was interesting). Perforce I read these in haste and didn't want to mark them up. I think I readm my notes from the train and copied what I thought I'd want. However, there may be other material I should have that in haste or carelessness I missed. If you think so, please tell me.

I didn't copy Norden's piece on the Paramilitary Right because I had it. It has good content but fell far short of what he could have done.

On the Weaver pictures, I read your injunction and have them in a separate envelope. Why? Are they but proofs?

Thanks.

H
